

OMBIL Regulatory Module (ORM) and GIS-ORM (G-ORM)

Status:

In Progress

IWR Contact:

David Lichy (David.E.Lichy@usace.army.mil)

Purpose:

To develop an improved and consistent database for use by the Regulatory program.

Objective:

Improve data collection, retrievability and usability as well as improve transparency of permit review for the general public.

Benefits:

Improved data collection, better interagency coordination, better communication with publics at all levels which have interest in the Regulatory program
